

STAR+PLUS is Coming and Your Medicaid May Change!

STAR+PLUS is coming to Lubbock!

Texas is reforming your Medicaid to increase your access to medical care and improve the quality of your health care, while saving the State of Texas money. Enrollment in STAR+PLUS is mandatory for some and optional for others.

Why is this important to you?

It is important for you, because enrollment in STAR+PLUS is **required** for Medicaid recipients who live in a **STAR+PLUS service area** and fit one or more of the following criteria:

- People age 21 or older who are receiving SSI
- People who are participating in the Medicaid Buy-In Program
- People who qualify for Community-Based Alternatives (CBA)

Beginning in December, Medicaid recipients who are eligible for STAR+PLUS will receive an enrollment packet in the mail that contains information about the program and your mandatory enrollment. The approved health plan providers for this area are Superior and Amerigroup.

You cannot ignore this!

If you don't choose your new STAR+PLUS provider, it will be chosen for you!

To help you understand the STAR+PLUS program and assist you in making an informed choice, LIFE/RUN is hosting 5 presentations between December 13th and February 2nd, 2012.
